04

CAT ELIGIBILITY

Required Minimum Graduation Score to Appear in CAT

50%

For General/OBC

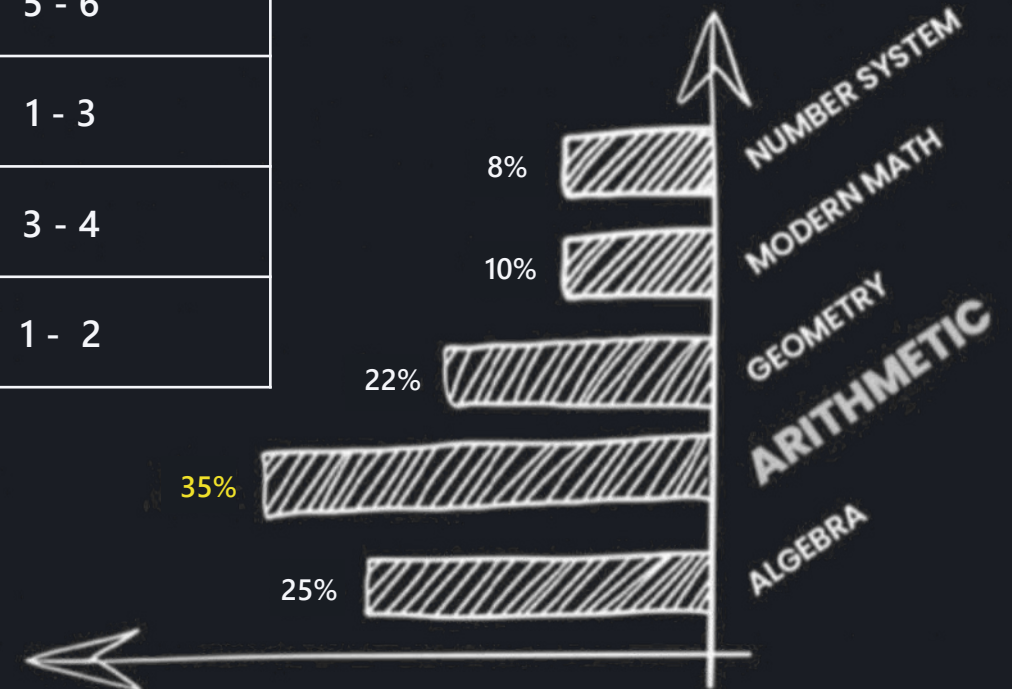

45%

For SC/ST/PwD candidates

- Final year bachelor's degree candidates or those awaiting their result are also eligible to appear for the CAT exam.
- Candidates with professional qualifications such as CA/CS/ICWA can also appear for CAT.
- 10th or 12th scores do not affect the CAT eligibility .

CAT Quant Syllabus & Weightage

THE MOST IMPORTANT TOPICS (in terms of weightage)	
Topic	Questions
Arithmetic	8 - 9
Algebra	5 - 6
Geometry	5 - 6
Numbers	1 - 3
Series, Logs ,P and C	3 - 4
Miscellaneous	1 - 2

CAT QUANT STRATEGY :

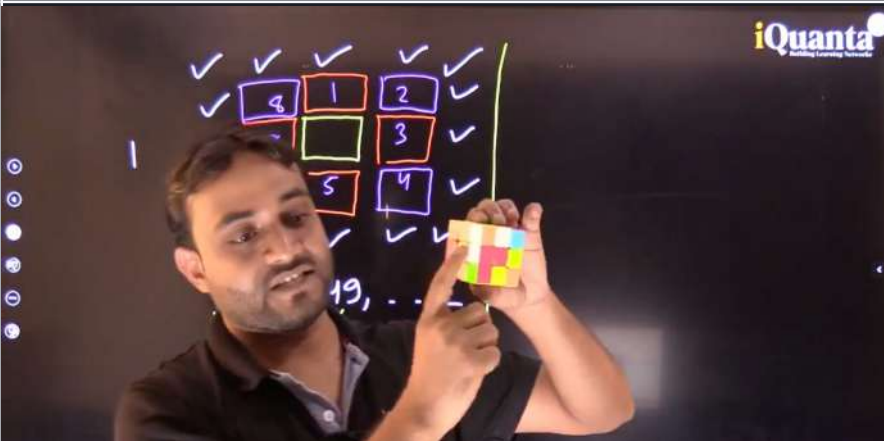

Step 1	Concepts	From the above Syllabus, clear all the concepts
Step 2	Practice	Practice at least 50 questions from each topic.
Step 3	Note	Note down any new things you've learnt
Step 4	Test Yourself	Take assignments or topic-wise tests to gauge yourself
Step 5	Revision	Revise the notes you made

Repeat the same for all the Quant Topics

Expert Tip :	No book is enough. Solve as many questions as you can from assignments, daily initiatives and most importantly those which are posted in CAT Preparation - iQuanta group or iQuanta Paid group. The questions posted in group are randomly distributed across all topics which prepares you substantially for CAT. (Do solve even if you don't comment).
Doubt Clarification :	In case you get any doubt, just post it in CAT Preparation iQuanta group on FB.

Doubts get cleared within 30 mins, be it Day or Night.

LRDI Syllabus & Weightage

DI	LR
Tables	Cubes
Line & Bar Graphs	Linear Arrangements
Pie Charts	Circular Arrangements
Quant Based DI	Venn Diagrams
	Distribution
	Selection
	Binary Logics
	Games & Tournaments
	Network Flow Diagrams

LRDI

Expect 4-5 LRDI mix sets in CAT out of these topics.

CAT LRDI Strategy: Treat LRDI just like long Puzzles

Approaching any LRDI SET:

1.	Invest some time over a question and study the question carefully before you start solving. A brief explanation of why each choice is correct or incorrect should frame into your mind. If you can practice this tip in sample reasoning questions, you will do well in the actual assessment.
2.	NEVER assume or use any information that the question fails to give you. This is NOT an assessment of how much you know about a subject in general! Consider ONLY the information given in each reading passage when choosing among the alternative responses.
3.	Read both the factual passage and the sentence completion instruction carefully. Both must be considered in making your choice.
4.	Be sure to read all the response choices carefully before eliminating or choosing one of them.

LRDI in CAT is tough and hence solving only 40% of LRDI sets can fetch you 99%le in CAT LRDI

What to Do: Before you begin the real preparation, solve puzzles or attempt Past CAT Sections from iQuanta and solve CAT 2000 to CAT 2014 LRDI section.

**Try Solving
2-3 LRDI sets per Day**

LRDI

VARC Syllabus & Weightage

Reading Comprehension Genre	Verbal Ability
Science & Tech.	Para Summary
Business & Economics	Para Completion
Arts, Society & Culture	Odd One Out
History & Politics	Para Jumbles
Philosophy & Psychology	
Mixed	

Topics	Weightage
RCs	16 Questions (4 sets)
Para Summary	3 Questions
Para Jumbles	3 Questions
Odd One Out	2 Questions

CAT VARC Strategy :

BREAKING DOWN 'READING COMPREHENSION'

It requires the following ingredients.

Higher retention - 40%	Fast reading speed - 30%	Ability to gauge the tone - 20%	Vocabulary - 10%
------------------------	--------------------------	---------------------------------	------------------

To improve these :

1	Read 1 to 2 articles from the 250 Genre wise Reading Articles by iQuanta. Available in iConcept Materials section at www.iQuanta.in
2	Daily solve 3 RCs from Past CAT Papers available at iQuanta website.

Major things to take care while solving RCs :

Q. How to approach a passage?

1	Read & absorb the passage before looking at the questions.
2	Note down important highlights of the paragraph while reading.

Q. How to attempt the questions?

1	Read the questions very carefully	2	Look out for easy questions
3	For tougher question, look out for similar options given	4	Do not make unwarranted assumptions.

CAT Score VS Percentile

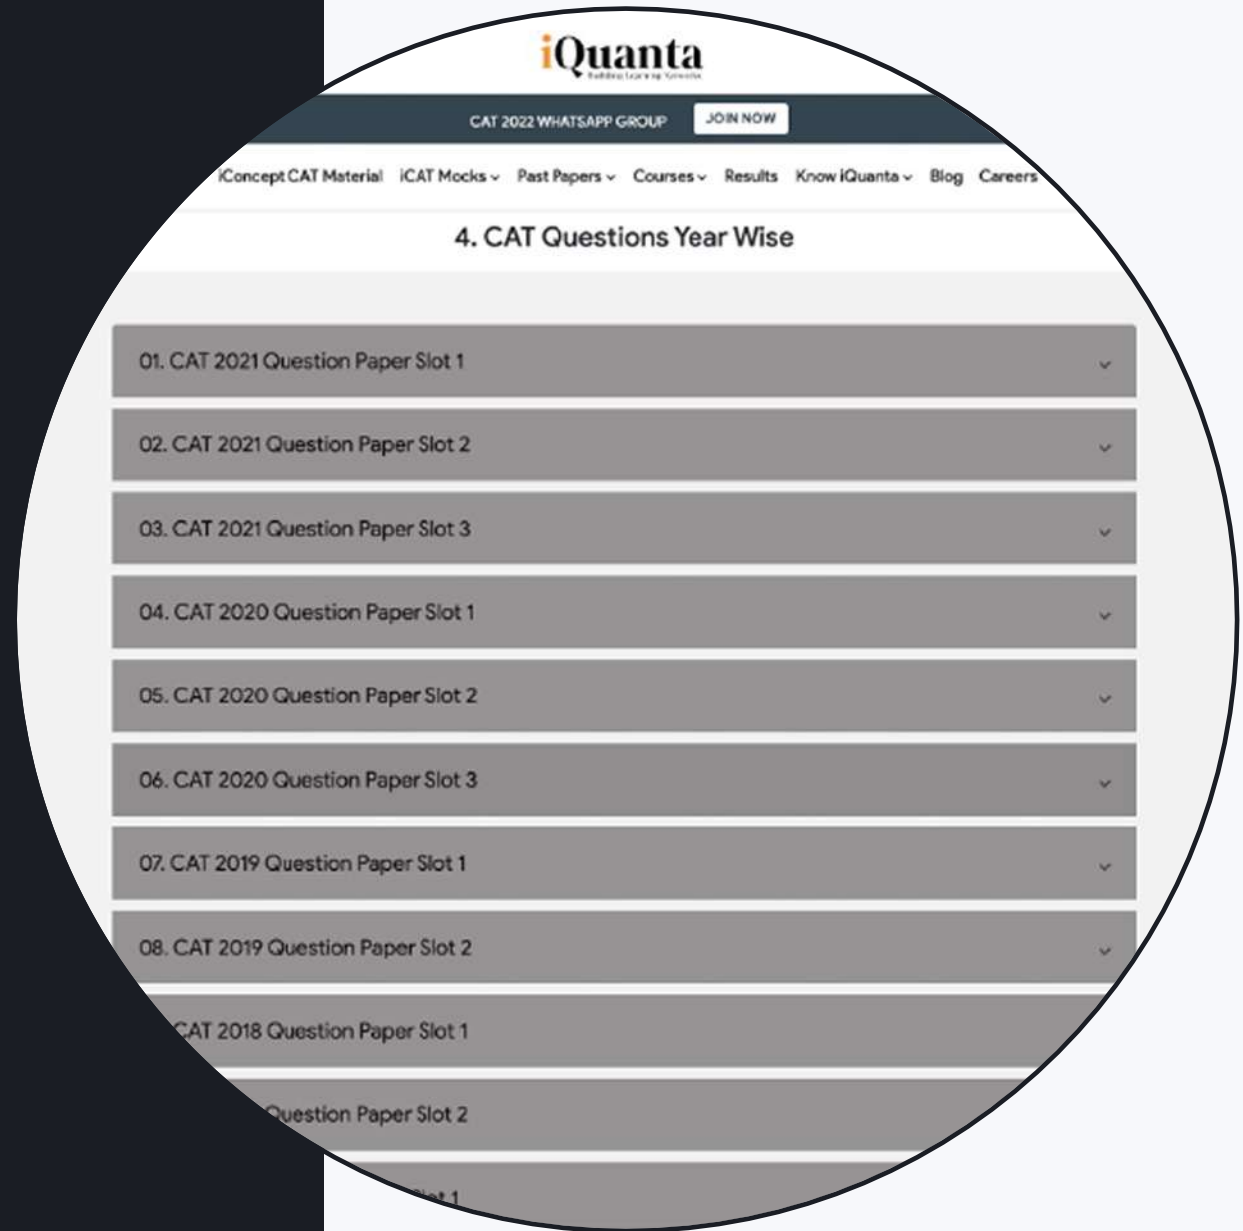

%ile	Overall	Verbal	LRDI	Quant
99.5	103	45	32	48
99	95	40	28	42
98	84	36	25	36
95	70	31	20	27
90	56	26	16	22
85	48	22	14	18
80	42	19	12	15

MOCKS

Mocks are very important as taking them will make you habitual of sitting for a 2 to 3-hour exam. They are also very important to figure out your weaknesses, and once you spot them, you should give them more attention.

A 99+ %iler attempts 30-50 mocks on an average.

Roger Shah
Speed of light = Speed of IQuanta solving doubts 🏆
1y Love Reply 2

Time it takes for **Light** to reach on **Earth from Sun** = 8 mins.

Time it takes for **iQuanta** to Solve **CAT Student's Doubts** < 8 mins.

For iQuanta CAT course visit www.iQuanta.in

Avush Dayal 45 m
How to approach the question ? iQuanta

Find the sum of all the four digit numbers which are formed by the digits 1, 2, 5, 6.
(a) 933510 (b) 93324
(c) 65120 (d) 8400

iQuanta
Conceptually : (sum of digits)(111..n times) (n-1)
When repetition of digits are not allowed
So, Sum has to be
$$=(1+2+5+6)(1111)((4-1)!)$$
$$=14*1111*6$$
$$=93324$$

02. iQuanta's Dual Pedagogy

- Listening passively has certain disadvantages because one is not actively involved in the learning process. And as we have limited attention spans, any student will not be able to listen attentively for an extended period of time.
- Hence, short attention spans can be increased through iQuanta's dual pedagogy wherein the focus is not only on teaching theoretical concepts but also application-based learning.

03. iQuanta's CAT Content Relevancy

Content Relevancy is one of the biggest features of iQuanta. Over the years it has been observed several times that the questions in exams like CAT, XAT and IIFT were similar to what was taught in the class.

A container contains 71.2L of pure milk. 20% of the milk (sol) is taken out and replaced with water. This process is repeated 'n' number of times. Find the min value of 'n' for which the milk concentration becomes less than 46.8%?

Like Comment Send

All comments ▾

Prem Kanakam
Total quantity of original milk = 71.2L (100%)
milk after first operation = 80% of 71.2 = 56.96L (80%)
milk after second operation = 80% of 56.96 = 45.568L (64%)
after 3rd operation, it is $64 \cdot 8 = 51.2\%$
after 4th operation it is around 40.96% < 46.8%

so min value of n is 4

The printed price of a calculator is Rs. 180. A retailer pays Rs. 137.7 for it by getting successive discounts of 10% and another rate which is illegible. What is the second discount rate? a) 12% b) 12.5% c) 15%

Like Comment Send

All comments ▾

Harshita Agarwal
MP=180
NOW, discounts are given to get it at 137.7
 $180 \cdot 0.90 \cdot x = 137.7$
 $x = 0.85$
So discount = $(0.85 - 1) \cdot 100 = -15\%$

- sign represents discount.

WE DO NOT JUST CATER TO THE BRIGHT ONES. IQANTA ALSO HAS A HISTORY OF GETTING STUDENTS FROM A **LOWER CAT PERCENTILE TO A HIGHER CAT PERCENTILE.**

From **70%ile** to **98%ile** after joining iQuanta's CAT Course

Bikramjit Ghosh
6 January 2020

My Journey from 70 to 98

This gonna be a long post, so hold tight. With the announcement of CAT results on Saturday, there has been an overwhelming no. of candidates who has been a part of this iQuanta family doing extremely well. A heartfelt congratulation to all those. But this post is not about them. As I go through the iQuanta page in these last two days, could see the success stories and struggles that the achievers has jotted down. But in this commotion, there are many voices getting lost who had worked hard for the past 1 year or so but couldn't achieve the desired result. This post is more about them.

Many of you who didn't do well despite of working hard or whatever may be the reason, do remember that your life doesn't depend or revolve around just one exam. You have put your best foot forward, but you need to overcome this dejection and look forward. As I was myself in a similar situation I can very well understand how it feels. But one thing which I have learnt in the past 2 years is PERSEVERANCE and NOT GIVING UP stands out among everything. After scoring such a meagre percentile, I was definitely dejected but I decided to pull up my socks and prepare for one more year as I believed in myself that I can definitely do well.

This is exactly one year back when I decided to enroll for the IQANTA COURSE and prepare for CAT one last time. One year of Peer to Peer learning, solving doubts and discussing with fellow students, learning new shortcuts and tricks associated with Indrajeet Singh sir's teaching and monitoring this platform provided me everything. There were days when I would score poorly in mocks and thought of giving up, but next day somehow again managed to push myself up and start preparing for the same. Even though I didn't manage to score 99+ as VARC pulled me down, but the journey from where I was and what I could manage this year is worth remembering. I may or may not get the desired 8 school but that doesn't change this journey. So a huge shoutout to all those people who are in a similar zone and frame of mind, my advice to you all would be don't give up. Keep the belief in yourself and start preparing for next year. There can be no other platform better than this as you would see thousands of students preparing alongside, solving doubts by backing each other through ups and downs.

I hope my story will motivate you all to give your best this year. And we all here are there to support and mentor you. I will start posting questions for CAT 2020. Better start early rather than be late.

From **74%ile** to **99.2%ile** after joining iQuanta's CAT Course

Syed Abdus Sattar
Last Year in CAT 2019, I got 74 percentile. That year I started preparing in March and thought would do self preparation. Then I studied for 10-15 days with Anul Sharma but was unable to manage job and work. I got demotivated and left preparation. Bas exam ke din jake paper diya and got 74 percentile and did not even want to attempt the paper after 1 and half hours and then I thought I am not going to waste 1 more year and will prepare sincerely, 2020 me same cycle repeat hui. I started preparing in and March with Anul Sharma and left after 10 days. Socha ki I am not giving test year. Then work from home ki wajah se I went to home and I was following iQuanta on Fb. Jab 4.5 months baache the tab my sister and mother asked me to join any coaching and then see whatever happens. I joined in the last batch of iQuanta and started preparing from scratch in the last batch. I attended all the events and practised as much I could after whatever time was left after job. Started giving mocks 2 weeks before CAT 2020. Think if I practised more mera LRDI me confidence better hota but still I do not have any regrets. Mocks me marks kharab hi the but CAT tension free hokar diya and I think tough CAT examination helped my cause. I got 99.2 percentile this year. Want to thank Jeet Singh sir and iQuanta for teaching me but more importantly for getting me to start the preparation systematically and get into a schedule.

A Journey from 60 to 96 percentile dedicated to iQuanta

Disclaimer - 96 percentile is not that big an achievement, but still I thought of sharing it. I will be more than happy if it inspires even a single aspirant. 🙏😊

My preparation had started last year (CAT - 18) when I was barely prepared for the D-Day. But a percentile in the 60s was certainly not what I was expecting. That broke me up completely and I was suggested by many to give up on my CAT dream and pursue my job and look for other career opportunities. But something inside me kept the fire burning and I decided to embrace the struggle and challenge my limits. I sought motivation from Indrajeet sir and I am thankful to him as he stood with me for support. This year was a journey of ups and downs. I learned the real meaning of struggle and overcame the fear of failure. Though I expected a lot more than what I achieved, still I am happy that I scored this and even more motivated to score more given another chance.

Joining iQuanta was one of my best decisions. I can never forget the late-night classes, 24 hrs doubt solving, peer interaction and learning and the motivational sessions. The crash course was a great help too.

From **72%ile** to **96.33%ile** after joining iQuanta's CAT Course

Harshit Patel

I would like to Thank iQuanta Team from the bottom off my heart and especially the OG Jeet Singh sir. From 72 percentile in CAT last year to 96.33 percentile this year (clearing all sectionals 😊😊). It was a great journey... It is all because of the classes and sessions that I reached here. Thank u team iQuanta... even though I didn't answer that much but I used to attend all the sessions regularly... I just purchased Quanta course but I got to learn and practice the other two sections as well... I can not thank u enough... 🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏

Hope to clear the forthcoming rounds nd bag a seat in a decent college!!! 😊

iQuanta helped to maintain momentum and discipline to my preparation.

SYED

work from home ki wajah se I went to home and I was following quanta on Fb. Jab 4.5 months bache the tab my sister and mother asked me to join any coaching and then see whatever happens. I joined in the last batch of quanta and started preparing from scratch in the last batch.
