05. iQUANTA'S DUAL PEDAGOGY

- Listening passively has certain disadvantages because one is not actively involved in the learning process. And as we have limited attention spans, any student will not be able to listen attentively for an extended period of time.
- Hence, short attention spans can be increased through iQuanta's dual pedagogy wherein the focus is not only on teaching theoretical concepts but also application-based learning.

06. iQUANTA'S CAT CONTENT RELEVANCY

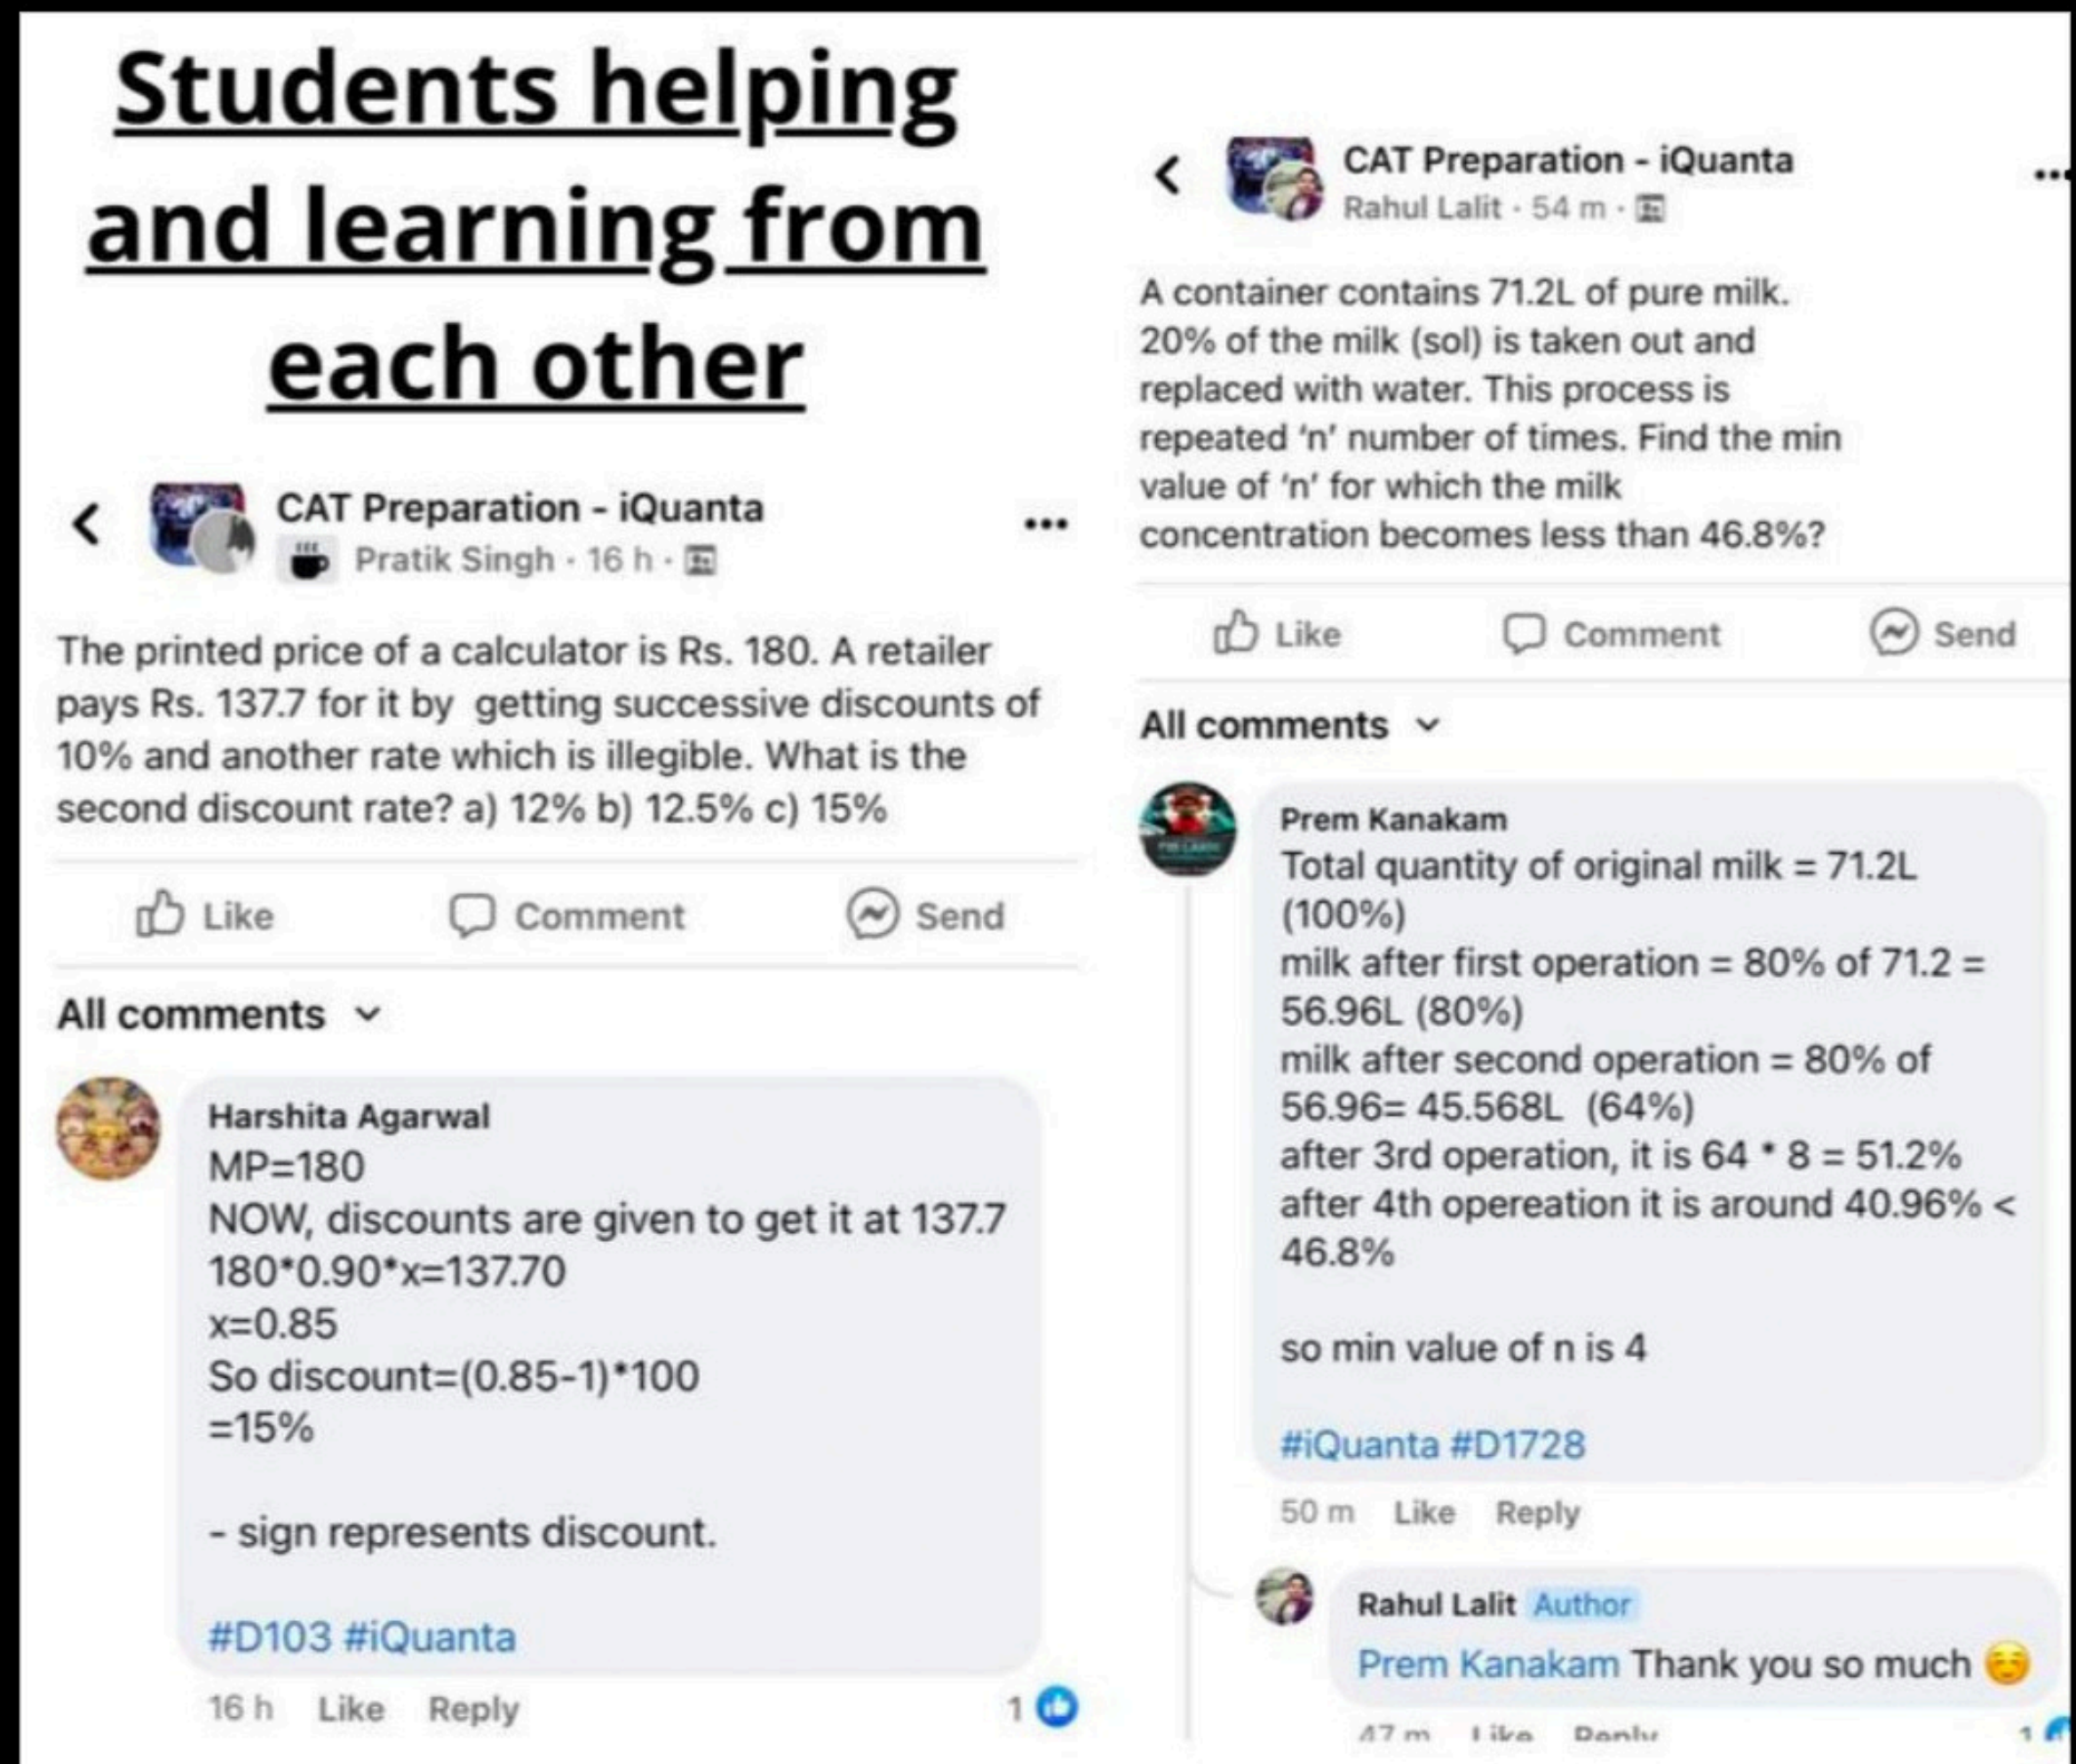

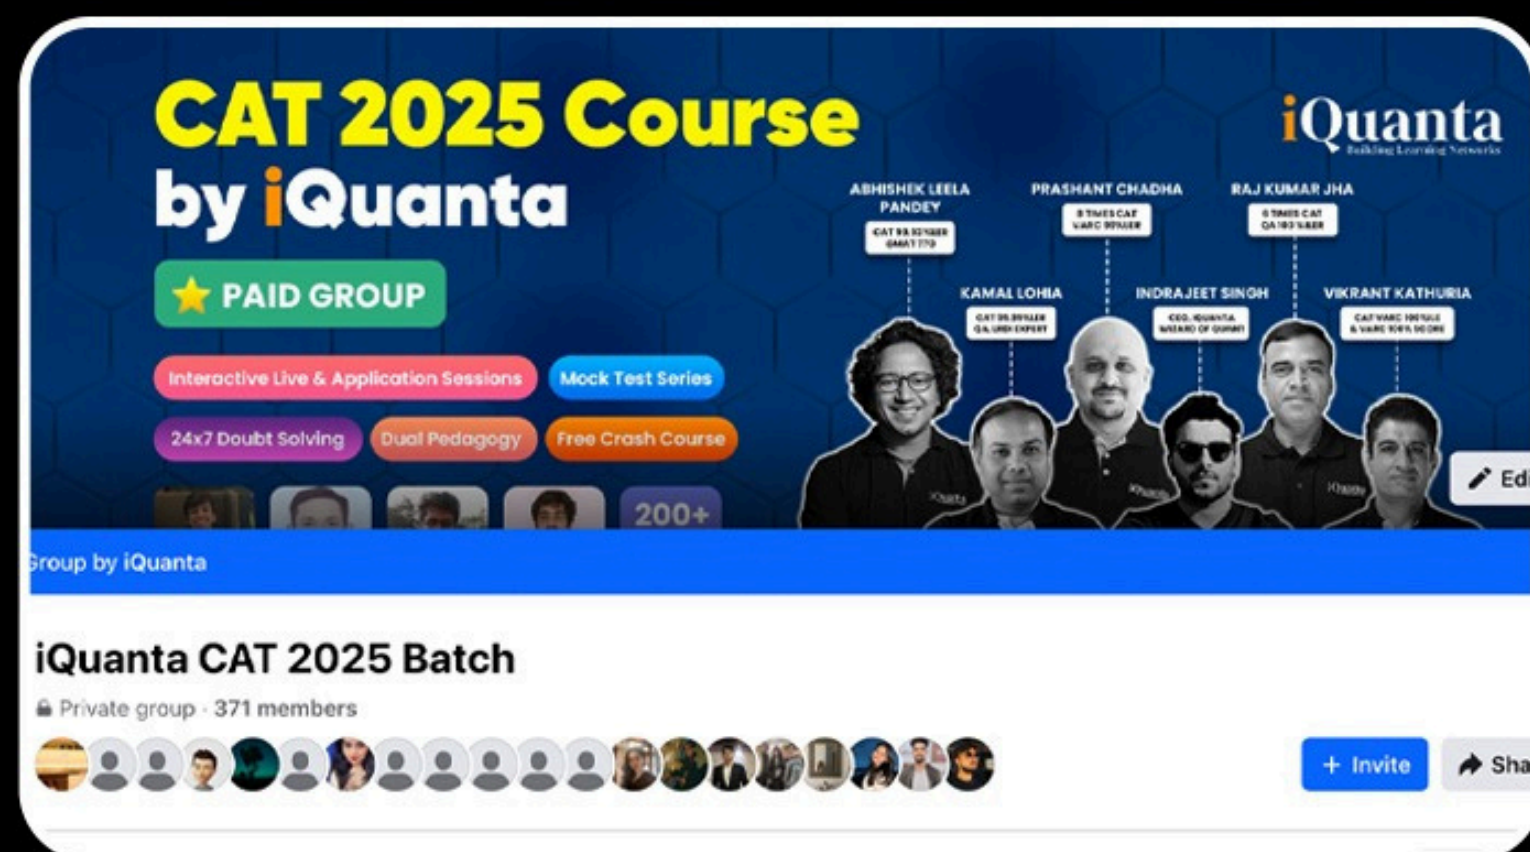

- Content Relevancy is one of the biggest features of iQuanta. Over the years it has been observed several times that the questions in exams like CAT, XAT and IIFT were similar to what was taught in the class.

07. PEER TO PEER LEARNING
